Study in Hawaii this summer

“The Hawaii program was the most eye-opening experience in my life thus far. I learned so much about the culture, the people, and the social strife that I would never have been introduced to simply as a tourist. I feel a vested interest in the Hawaiian culture and will forever feel connected to the islands and the people.”

No passport? No problem! Michigan State University’s Hawaii program will transport you into a multicultural community like no other.

Come to an informational meeting Tuesday, January 28th at 5:00 pm in 213 Berkey Hall to learn how you can earn MSU credits this summer as part of a Hawaii study program or full time internship experience. Have your questions answered by students who have been there.
